delight

infinity effect

STRING comes in horizontal or vertical versions, with two heights and light-opening widths. With customisable colours for the frame, reflector and LED, it adds a refined, personal touch to any space.

delight

beam adjustment and playful
colour combinations

ONLY LIGHT creates the effect of light emerging from within the wall. When installed vertically or at floor level as ONLY LIGHT DOWN, it provides soft, glare-free illumination and a seamless infinity effect that gently lights up stairs and transitions.
