SHAPE

PLUQ IN is where function dares to feel.

Drawing inspiration from workshops and Austria's industrial heritage, it transforms spiral cables and exposed connectors into a defining feature. Light, power and acoustic presence come together to free interiors from fixed points and rigid rules. It is a bold, intentional system that brings identity and possibility to any space.

plug in

ZweGiele

The Swiss design duo ZweGiele, Christoph Vollenwyder and Lino Amati, blend architectural precision with artistic intuition. Their collaboration with PROLICHT on PLUQ IN reinterprets industrial legacy through a contemporary lens, showing how authenticity and functionality can evolve into a new language of visible energy.

plug in

plug. suspend. express

PLUQ IN highlights the cable as a functional and structural element. Its spiral cord, plug-in joints, and defined accents create an exposed lighting system designed for easy installation, clear routing, and visible integration within the architectural space.
