snooker

design and technology

SNOOKER features advanced LFO lens technology that sculpts light with precision, creating striking contrasts and a fresh spatial experience. Available in 32° and 58° beam angles, it ensures high visual comfort with a low UGR.

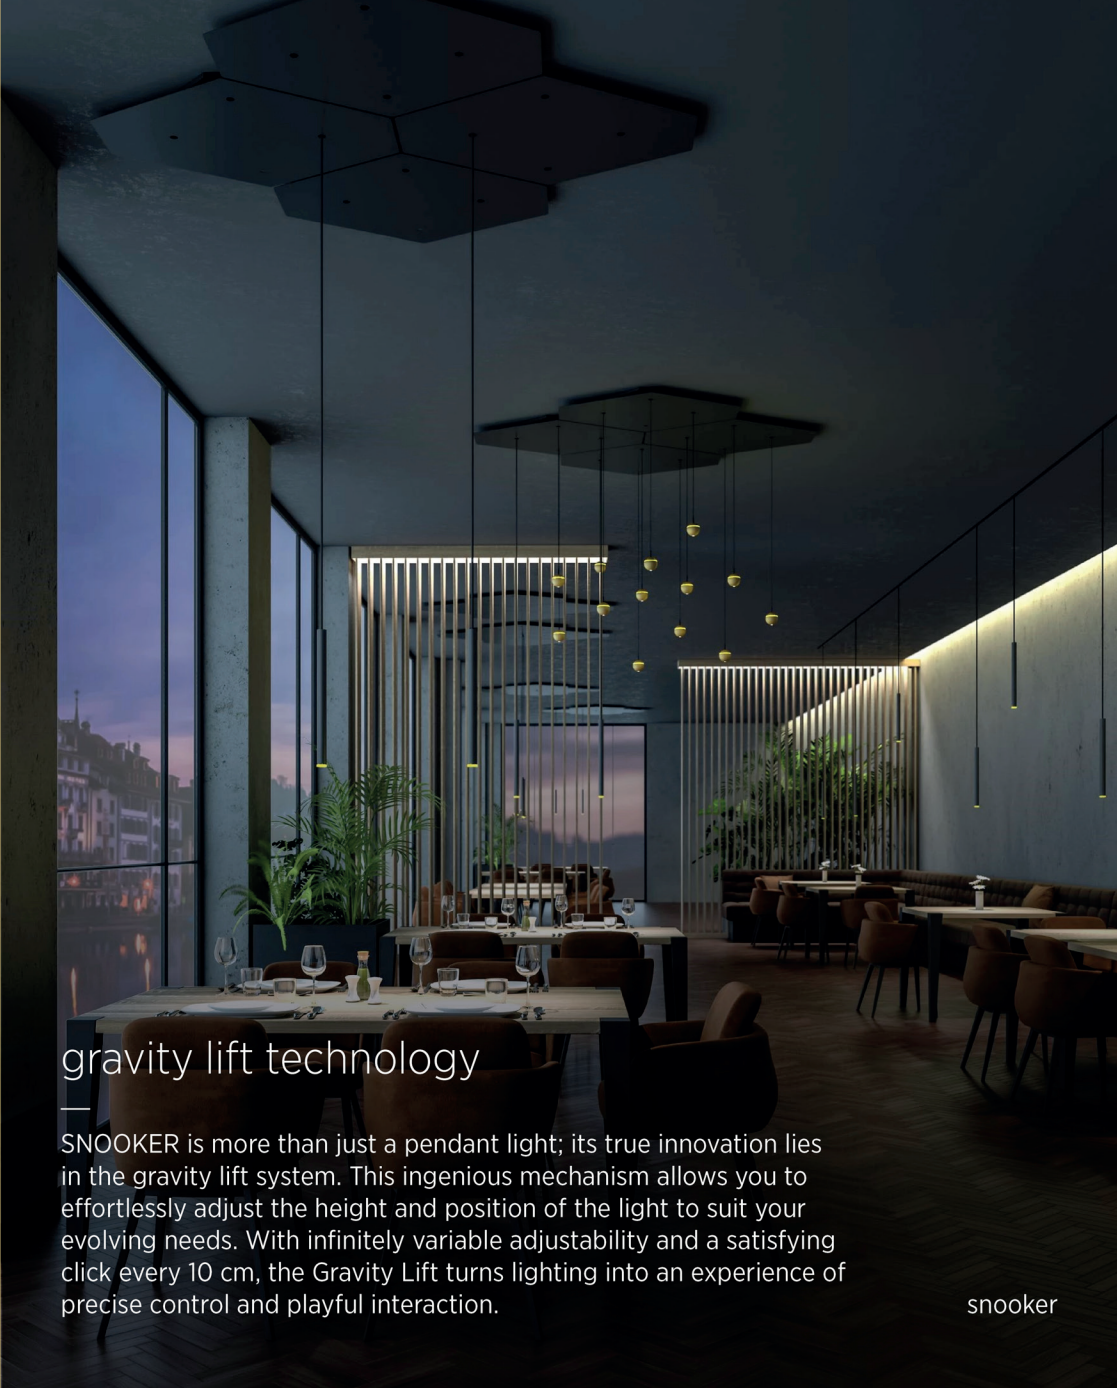

SNOOKER can be installed as a single luminaire or as an insert in the following systems:

- CLICKTRACK
- FORTIES
- MINIMAL TRACK
- HYPRO
- GRAVITY

snooker

gravity lift technology

SNOOKER is more than just a pendant light; its true innovation lies in the gravity lift system. This ingenious mechanism allows you to effortlessly adjust the height and position of the light to suit your evolving needs. With infinitely variable adjustability and a satisfying click every 10 cm, the Gravity Lift turns lighting into an experience of precise control and playful interaction.
