LUXURY MAKEOVERS

PROLICHT
designed to create

POINT

STUDIO COLLECTION is a refined reinterpretation of PROLICHT classics. It features slim, compact luminaires with polished brass and aluminium details. Despite their small apertures, they provide high light output, complete glare control and a premium aesthetic.

studio collection

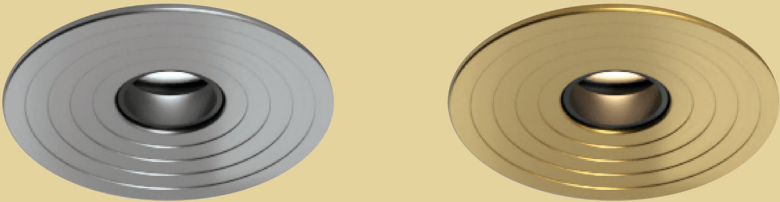

studio collection

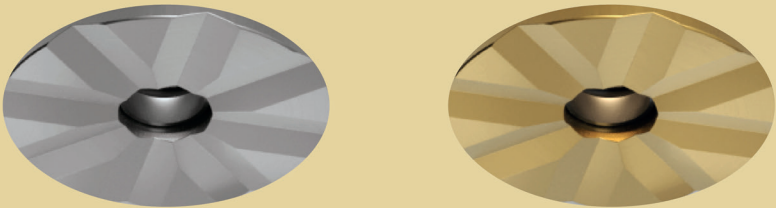

models

The STUDIO COLLECTION features two models, both with refined metallic details, including a specially designed front cover. Model 1 has a simple, elegant radial pattern, while Model 2 has a more distinctive, extravagant design. Both versions are available with brass or aluminium covers.

model 1

model 2

studio collection

lighting technology

The STUDIO COLLECTION combines refined design with advanced optical technology to ensure high visual comfort and a low UGR. All luminaires are available with two beam angles, medium and very wide flood, enabling focused illumination and broad ambient lighting.
